Restraint and Involuntary Seclusion Report

Total number of children in care who were placed in involuntary seclusion more than three times during the reporting period.	N/A
A description of the steps the program has taken to decrease the use of restraint and involuntary seclusion.	On a weekly basis, children in the program with multiple holds are discussed with the treatment team members and therapists. Specific reasons as to why holds are happening, such as medication changes, topics being discussed in therapy, or visits and contact with families are examined. Once a month, all the restraint and seclusion data is discussed by the Quality Assurance Committee and factors such as length of placement, medications, and specific staff/child interactions are discussed by the committee.
Number of incidents in which an individual who placed a child in care in a restraint or involuntary seclusion was not certified or trained in the use of the type of restraint or involuntary seclusion used, including individuals whose certification or training was expired at the time of the restraint or seclusion.	0
